The partners shall not, without prior written consent of the general partner, disclose to any person, firm or corporation or use to the detriment of the partnership or any of the partners any confidential information which may have come to its or their knowledge concerning the affairs of the partnership or portfolio investments or proposed investments.

Executive Summary

28,7%	**1,10x**	**0,00x**
Net IRR (Average Yearly Return since 2025)	Total Value to Paid In Capital (TVPI)	Distributions to Paid In Capital (DPI)
11	**EUR 3,4m**	**EUR 34m**
Active Portfolio Companies	Accumulated Return since Inception	Drawn from Investors since Inception

Highlights as of June 30th, 2026

• In Q2 2026 ATP PEP IX B committed a total of EUR 59.2 million to 5 new portfolio funds Mentha VIII, Seidler IX, Seidler Discovery I, Waterland X and Y Combinator 2026 and 1 new continuation vehicle Maxburg III CV Securepoint bringing total commitments to EUR 129 million corresponding to 52% of total commitment.

• Q2 2026 net return of EUR 0.9 million corresponding to 1.4%.

• The Q2 2026 return is positively affected by an increase in valuation of the co-investment Weee!. The result is positively affected by the increase in the USD/EUR exchange rate.

• Year-to-date 2026 net return of EUR 0.8 million

• Net return since inception of EUR 3.4 million.

• A total of EUR 33.7 million has been paid in corresponding to 13.6% of total commitment.

• Total net asset value is EUR 37.1 million.

Note 5

ESG Policy

The Fund is qualified under Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR). The Fund is subject to a number of restrictions related to investments. Investments will not be made in companies that are principally engaged in extracting and/or exploration of fossil fuels (coal, oil or gas). Further, investments will not be made in utility companies where the CO2 intensity of its energy production exceeds 600g CO2/kWh and use of coal in its energy production, or who builds new coal-fired power plants (which for the avoidance of doubt, does not exclude investment in companies providing services to the foregoing companies). In addition, investments will not be made in Portfolio Funds domiciled in a country listed on EU's list of non-cooperative jurisdictions for tax purposes as of the date of the commitment to a Portfolio Fund. Investments will not be made in funds or companies that on the time of investment are on ATP's Prohibited Investments List.

Note 6

Tax Code of Conduct

In 2018 ATP, and three other Danish pension funds (Industriens Pension, PensionDanmark, and PFA), established a working group to work on a common framework for responsible tax behavior. The Tax Code of Conduct for unlisted investments was published in August 2019 with guiding principles on how ATP expects external managers to act. This ensures tax effective and tax responsible investments. A common Tax Code of Conduct improves the ability to engage with our investment managers and foster a responsible tax behavior.

ATP PEP accepts and expects non-aggressive tax planning, which aims to ensure fair competition and avoid double taxation as exemplified by the following non-exhaustive examples; 1) General use of holding companies, 2) General use of tax treaties where the business substance justifies the use of a specific treaty, 3) General use of current and historic tax losses to reduce taxable income, 4) General use of debt financing, and 5) Use of hybrid entities for non-aggressive tax planning (for instance to avoid filing obligations).

ATP PEP does not accept aggressive tax planning (defined as exploitation of technicalities in a tax regime or as exploitation of inconsistencies between tax regimes in order to reduce tax liability), such as abuse of tax treaties, transfer pricing planning for tax avoidance purposes, use of financial instruments for aggressive tax planning, use of hybrid entities for purposes of aggressive tax planning, etc.

Accounting Policies

The internal report is for April 1st, 2026 to June 30th, 2026 presented in accordance with the financial reporting provisions of Section 13.1 of the Limited Partnership Agreements of ATP Private Equity Partners IX B K/S dated February 6th, 2025 ("LPA's") and the provisions for recognition and measurement of the Danish Financial Statements Act ("DFSA") governing reporting class C enterprises.

The company has according to Section 84.4 chosen to recognize and measure all financial assets and liabilities in accordance with international accounting standards (IFRS), as approved by the European Union.

Recognition and measurement

Assets are recognized in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to ATP PEP IX B, and the value of the asset can be measured reliably.

Liabilities are recognized in the balance sheet when ATP PEP IX B has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of ATP PEP IX B, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost, although measurement of financial assets and liabilities are initially recognized at fair value, which is typically in accordance with cost, excluding direct expenses. Measurement subsequent to initial recognition is affected as described below for each Annual Account item.

The purchase and sale of financial assets and liabilities are recognized at the transaction date.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognized in the profit and loss account when earned, whereas costs are recognized by the amounts attributable to this financial year.

Foreign currency conversion

Transactions in foreign currencies are converted to EUR at the transaction date exchange rate. Investments, receivables, and debt in foreign currencies are converted to EUR at the balance sheet date exchange rate.

Realized and unrealized exchange rate profit margins and losses are booked in the profit and loss account under exchange gains/losses on investments in portfolio funds.

Accounts receivable or payable in foreign currency are translated into EUR according to the exchange rate at the balance sheet date. Realized and unrealized exchange rate profit margins and losses are booked in the profit and loss account under financial items.

Carried interest and other reallocations

Change to unrealized carried interest, including reversal of unrealized carried interest due to exits, is presented in the Limited Partner's Capital Account. Any other calculated reallocation between the Partnership's Capital Accounts necessary to ensure that values are distributed in accordance with the Limited Partnership Agreements that is not related to carried interest is presented as 'Other reallocation of fair value'.

Profit and loss account

Income from investment funds

Income from other securities and shares includes interest, dividends, realized and unrealized value adjustments of these items as well as exchange rate gains and losses attributable to transactions in foreign currencies.

Management fees

The management fees include a fee to Private Equity Advisors AIFM A/S attributable to administrative work performed on behalf of the company.

Financial income and expenses

Financial income and expenses include interest as well as exchange rate gains and loss related to ATP PEP IX B's bank facilities.

The limited partnership is a transparent entity for tax purposes, hence the result of the limited partnership is included in the limited and general partner’s taxable income. Foreign tax of the profit includes dividend tax from foreign portfolio companies.

Foreign tax

The limited partnership is a transparent entity for tax purposes, hence the result of the limited partnership is included in the limited and general partner’s taxable income. Foreign tax of the profit includes dividend tax from foreign portfolio companies.

Balance sheet

Financial assets

Financial assets are valued at fair value on the balance sheet date with running recognition of fair value adjustments over the profit and loss account, cf. IFRS9. The firm consequently performs portfolio considerations in accordance with investments. The portfolio and its performance are managed and evaluated in keeping with the firm’s risk management and investment strategy with a starting point in fair value, which also forms the basis for the internal rapport to the firm’s senior management.

Investments in portfolio funds

Investments in portfolio funds and co-investments are measured in accordance with the IPEV Valuation Guidelines and/or FASB Topic 820 according to which investments are measured at fair value. Revaluations are included in the profit and loss account.

Investments in unlisted private equity funds are valued on the basis of the latest reporting received from the portfolio funds. The reports from the portfolio funds contain a valuation of the private equity fund, including a valuation of each individual portfolio company. The value of a private equity fund consists of the sum of the values of the portfolio companies in which the fund has invested in, and the value of other net assets.

Unlisted portfolio companies

Investments in portfolio companies are measured at fair value either by the use of valuation methodologies based on earnings multiples, net assets, discounted cash flows, industry valuation benchmarks, an increase of capital or a part sale.

Receivables

Receivables are measured at amortized cost. Receivables are written down in accordance with expected losses after individual consideration.

Cash and cash equivalents

Cash and cash equivalents include bank accounts.

Liabilities and period accruals

Liabilities are measured at amortized cost. Period accruals, recognized as liabilities, as well as other debt includes received payments concerning income in the following years and costs incurred during the accounting period, which have yet to be paid.

Financial liabilities are recognized at the date of borrowing at the net proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at fair value.

Other liabilities include performance fee and administrations costs due. Liabilities are measured at net realized value.

Key figures

Key figures included in both the executive summary and financial statements is computed by the following method:

Total-Value-to-Paid-In (TVPI):
(The value of distributions to investors + the value of the remaining portfolio – reserved carried interest pertaining to the incentive program) / Paid in capital from investors.

Distributed-to-Paid-In (DPI):
The value of distributions to investors / Paid in capital from investors.

Internal-Rate-of-Return (IRR):
Internal interest rate calculated based on the realized cash flows including the date of the cash flows as well as the value of equity deducted by reserved carried interest pertaining to the incentive program.

Multiple-On-Invested-Capital (MOIC):
(The realized value of the portfolio + the unrealized value of the portfolio) / invested capital by the GP.

Paid-In-to-Committed-Capital (PICC):
Paid-in capital / Commitment.

Management Statement

The manager has today considered and approved the quarterly report for the period April 1st, 2026 to June 30th, 2026 of ATP Private Equity Partners IX B K/S. The accounts have been prepared in accordance with the Danish Financial Statements Act and the Invest Europe – Investor Reporting Guidelines.

We consider the accounting policies used to be appropriate. Accordingly, it is our opinion that the financial statements of the partnership give a true and fair view of the Partnerships assets, liabilities, and financial position as of June 30th, 2026.

We believe that the Management's fund review includes a fair review of developments in the partnership's activities and finances.
